

7TH EDITION

EXPO PERÚ INDUSTRIAL

20-22
AUGUST 2026

 JOCKEY EXHIBITION CENTER
LIMA, PERU

THE MOST IMPORTANT
TRADE FAIR ECOSYSTEM

FOR THE PERUVIAN INDUSTRY

WHERE THE PERUVIAN INDUSTRY BUILDS ITS FUTURE.

Over our six editions, we have built a space where the Peruvian industry showcases its best version. With more than 20,000 specialized visitors and 250 exhibitors across 18,000 m² of exhibition space, we have become the essential meeting point for those leading the country's industrial transformation.

We connect local and international companies with real business opportunities, providing access to cutting-edge technology and specialized knowledge. In 2026, we will once again bring together the most dynamic sectors: Industrial Paints and Coatings, Renewable Energy, Wood and Furniture, Additive Manufacturing, Industrial Safety, Supplies and Specialized Services, Intralogistics and Warehousing, among other strategic segments.

Expo Perú Industrial goes beyond the traditional trade show. We are a comprehensive platform where technological innovation, knowledge exchange, and strategic networking drive the sustainable development of the Peruvian industry and its projection across the Andean region.

The Peruvian industry deserves a space worthy of its potential. That space is Expo Perú Industrial.

WHO EXHIBITS?

Companies manufacturing renewable energy systems, solar panels, and batteries.

Manufacturers and distributors of solar and renewable energy solutions. A showcase to present clean generation and energy storage technologies that are

Professional installation service companies.

Companies specialized in the installation and maintenance of electrical, renewable, and energy efficiency systems, with business opportunities in large-scale projects.

Industrial lighting, illumination, and lightec companies.

Suppliers of high-performance lighting for plants, warehouses, and urban spaces, focused on efficient and sustainable solutions.

Manufacturers of industrial motors, servomotors, and gear motors.

Companies dedicated to the manufacturing and distribution of industrial motors — key to automation, production, and process efficiency.

HVAC: Heating, ventilation, air conditioning, and refrigeration for the industry.

Suppliers of HVAC systems designed for industrial applications, ensuring energy efficiency, environmental control, and safety in production processes.

Maintenance, marine, and architectural.

Space for companies offering specialized maintenance solutions in the naval, maritime, and infrastructure sectors.

Industrial paints and coatings.

High-performance products designed to protect surfaces against corrosion, wear, and extreme conditions, ensuring greater durability.

Industrial flooring.

Targeted at companies that develop or distribute high-performance industrial paving solutions.

Suppliers of equipment, inspection tools, and machinery.

Key segment for companies that market application equipment, inspection tools, and machinery for industrial processes.

Surface preparation and cleaning, abrasives.

A space for suppliers of surface treatment solutions, abrasives, and industrial cleaning technology.

Paints, varnishes, lacquers, and paint ovens.

Ideal section for manufacturers and distributors of finishing products and equipment. A showcase to present everything from decorative solutions to specialized processes with paint and curing ovens, targeting industries aiming to optimize quality and production times.

Shot blasting and sandblasting.

Specialized area for companies offering equipment, materials, and services for surface preparation through shot blasting and

sandblasting processes.

WHO EXHIBITS?

Utility and Industrial Transport:

Vehicles for logistics use inside and outside the plant, freight trucks, light and heavy fleets, specialized vehicles, internal transport systems, and solutions to optimize material flow.

Intralogistics Equipment and Solutions:

Forklifts, cranes, overhead cranes, lifting platforms, conveyor belts, lifting and material handling equipment, AGVs, racks, warehouse robots, picking systems, and warehouse optimization solutions.

Storage and Distribution:

Containers, modular solutions, storage structures, automated systems, logistics management software (WMS/TMS), 4PL and 3PL logistics services, and traceability technologies.

Logistics infrastructure:

Industrial zones, logistics lots, distribution hubs, loading and unloading infrastructure, signage, plant traffic safety, and internal traffic planning.

Smart and sustainable technologies:

From vehicles with new powertrains to route optimization software, fleet management, and real-time monitoring — all with a focus on operational efficiency and cost reduction.

Manufacturers of 3D printers using FDM, SLA, SLS, DLP, and metal and resin printing technologies.

Manufacturers of cutting-edge additive manufacturing equipment, with applications in sectors such as automotive, aerospace, healthcare, and advanced manufacturing.

Suppliers of filaments, resins, powders, and composite materials for professional 3D printing.

Specialized input suppliers providing strength, precision, and quality across various industrial applications.

CAD/CAM software platforms, 3D modeling tools, scanning, and simulation.

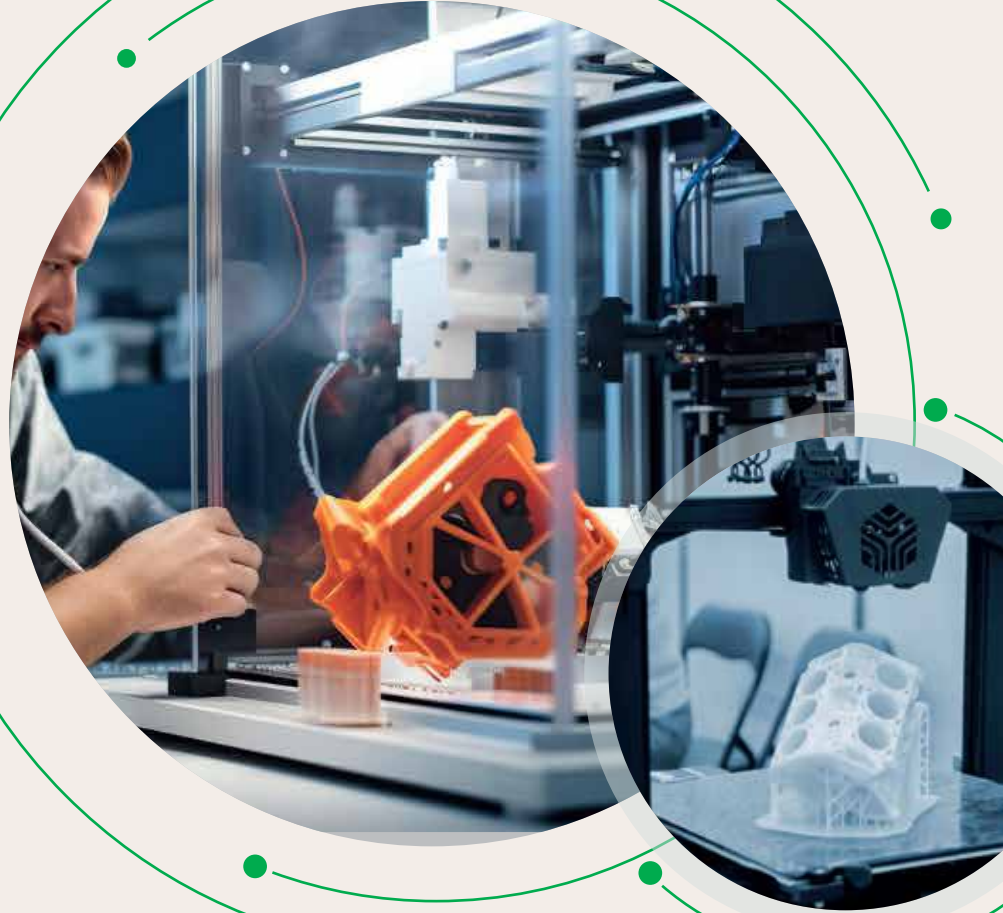

Digital solutions for design, simulation, and digitization of production processes, aimed at accelerating innovation.

3D printing services, rapid prototyping, scanning, and on-demand manufacturing.

Suppliers of flexible services for one-off parts, functional prototypes, and short-run productions with speed and precision.

Educational institutions, digital labs, FabLabs, and technology research centers.

Space for universities and innovation centers that promote projects, research, and knowledge transfer.

Manufacturers of machinery and tools (for wood and portable use).
Manufacturers and distributors of cutting equipment, machining tools, and portable tools, aimed at carpentry, construction, and advanced industrial production.

Wood, particleboards, panels, and edgings.
Suppliers of wood-based materials and inputs, essential for furniture, architecture, and industrial projects.

Pinturas, resinas, barnices, pegamentos y colas
Companies offering finishing products and specialized adhesives for the wood industry, ensuring durability and aesthetics.

Hardware, locks, and fastening elements.
Manufacturers and distributors of metal components, fastening, and locking systems, essential for furniture, doors, and structures.

WHO EXHIBITS?

Uniforms and protective clothing.

Flame-resistant, reflective, thermal, and anti-static clothing designed to ensure safety and comfort in high-risk environments.

Personal protective equipment (PPE)

Helmets, gloves, goggles, hearing protection, and safety footwear, essential for comprehensive worker protection.

Respiratory protection.

Masks, respirators, and assisted ventilation systems for environments with exposure to dust, gases, or vapors.

Fall protection

Harnesses, lifelines, scaffolding, and anchoring systems for safe work at heights.

Risk detection and prevention.

Gas sensors, alarms, signage, and lockout/tagout (LOTO) systems that prevent accidents and emergencies..

PARTICIPATION BENEFITS

ACCESS TO INTERNATIONAL MARKETS

Participation facilitates engagement with foreign delegations interested in establishing business relationships, creating opportunities for export and expansion.

UPDATES ON TRENDS AND TECHNOLOGY

Exhibitors have the opportunity to learn firsthand about the latest innovations and advancements in the sector, which strengthens their competitiveness.

GENERATION OF BUSINESS ALLIANCES

The trade fair is an ideal setting to identify strategic partners that strengthen the value chain, expanding distribution channels and operations.

STRATEGIC NETWORKING

The event allows interaction with entrepreneurs, associations, and institutional representatives, creating valuable connections for future business and collaborations.

BRAND POSITIONING AND VISIBILITY

The trade fair offers exhibitors the opportunity to showcase their products and services to a highly specialized audience, strengthening their presence in the industrial market.

TECHNICAL SHEET:

01

EVENT TYPE:

Specialized event for suppliers in the public and private sectors, focused on local and international companies across multiple industries.

02

SCOPE:

Expo Perú Industrial is the international multi-sector industrial and production fair in Peru, with a global reach, bringing together companies from industrial and related sectors to showcase products, services, and solutions to both the public and corporate sectors.

03

LOCATION, DATE, AND TIME:

Jockey Exhibition Center, Lima, Peru.
August 20-22, 2026
12:00 PM – 8:00 PM

04

EXHIBITION:

More than 250 exhibitors, 6 industrial sectors represented, 20,000 visitors, and an academic program featuring over 40 specialized conferences and workshops.
