

**On approval of the list of electronic component databases
(electronic modules) and (or) industrial products containing an electronic component
base (electronic modules),
in respect of which a technological fee is paid,
the size of such collection and methods for determining the size
technological fee**

In accordance with paragraphs 26 and 27 of Part 3 of Article 6 of the Federal Law of the Russian Federation No. 488-FZ of December 31, 2014 "On Industrial Policy in the Russian Federation" and paragraph nine of paragraph 1 of the Regulations on the Ministry of Industry and Trade of the Russian Federation, approved by Decree of the Government of the Russian Federation No. 438 of June 5, 2008, *п, r i k a z s v a y*:

1. Approve the attached documents:

a list of electronic component bases (electronic modules) and (or) industrial products containing electronic component bases (electronic modules), in respect of which a technological fee is paid, and the amount of such fee;

methodology for determining the size of the technological fee.

2. This order comes into force on December 1, 2026.

3. Control over the implementation of this order is entrusted to the Deputy Minister of Industry and Trade of the Russian Federation V. V. Shpak.

Minister

A. A. Alikhanov

¹ Decision of the Council of the Eurasian Economic Commission No. 80 of September 14, 2021 "On Approval of the Common Commodity Nomenclature for Foreign Economic Activity of the Eurasian Economic Union and the Common Customs Tariff of the Eurasian Economic Union, as well as on Modification and Invalidation of Certain Decisions of the Council of the Eurasian Economic Commission", which is binding on the Russian Federation in accordance with the Treaty on the Eurasian Economic Union Federal Law No. 279-FZ of October 3, 2014 "On Ratification of the Treaty on the Eurasian Economic Union" (entered into force for the Russian Federation on January 1, 2015).

² According to the directory of trademarks and models of industrial products containing an electronic component base (electronic modules), given in the appendix to the methodology for determining the amount of technological fee approved by this order.

³ Article 20¹ of Federal Law No. 381-FZ of December 28, 2009 " On the Fundamentals of State Regulation of Trade Activities in the Russian Federation.

APPROVED

by order of the Ministry of Industry
and Trade of the Russian Federation
from _____ № _____

METHODOLOGY
determining the size of the technological fee

1. This methodology defines the procedure for calculating the amount of the technological fee for each unit and (or) each unit from the group of electronic component bases (electronic modules) and (or) industrial products containing electronic component bases (electronic modules) that are imported into the Russian Federation by the payer of the technological fee or produced on the territory of the Russian Federation, on the continental shelf Of the Russian Federation, in the exclusive economic zone of the Russian Federation by the payer of the technological fee (hereinafter referred to as products).

2. The amount of technological collection of products is determined by the following formula:

$$S = S_b \times (1 + k_{tzm}),$$

where:

S_b – base rate for calculating the amount of technological collection of products, in rubles.

k_{tzm} -coefficient of the trademark and product model.

The coefficient of the trademark and product model k_{tzm} takes the value:

minus 0.33 – if the state information system for monitoring the turnover of goods subject to mandatory labeling by means of identification¹ (hereinafter referred to as the monitoring information system) contains information about the trademark and product model in accordance with the Directory of Trademarks and Product Models containing an electronic component base (electronic modules) specified in the appendix to this methodology (hereinafter referred to as the Yandex. Directory), at the time of receiving the notification of the product's entry into circulation².

0.33 – if there is no information about the trademark and (or) product model in the information monitoring system according to the Reference Book, at the time of receiving the notification of the product's entry into circulation.

The amount of the technological fee is rounded to the nearest integer, in rubles.

3. The base rate for calculating the amount of technological collection of products is calculated using the formula:

$$S_6 S_b = P P_{50}^i \times K,$$

where:

P_{50}^i – median distribution of the average customs values of the *i*-th type of product imported into the Russian Federation in 2025, rounded to hundreds of rubles;

K is the official target inflation rate of the Central Bank of the Russian Federation, which is assumed to be 4 % in this Methodology.

4. The average customs value of a unit of the *i*-th type of product imported into the Russian Federation in 2025 as part of delivery *d* is calculated as:

¹ Article 20.1 of Federal Law No. 381-FZ dated December 28, 2009 "On the Fundamentals of State Regulation of Trading Activities in the Russian Federation.

² Paragraphs 77-79 of the Rules for Labeling Certain Types of Radio-electronic Products by Means of Identification and the Specifics of Implementing the State information system for Monitoring the Turnover of Goods Subject to Mandatory Labeling by Means of Identification in Respect of Certain Types of Radio-electronic Products, approved by Decree of the Government of the Russian Federation No. 1954 dated November 28, 2025.

$$p_{id} = \frac{C_{id}}{n_{id}},$$

where:

C_{id} – customs value of the i -th type of product presented in delivery d ;

n_{id} – the declared number of units of the i -th type of product presented in postcard d .

5. The Ministry of Industry and Trade of the Russian Federation shall include information about a trademark and / or product model in the Directory by making changes to this order no more than once a quarter.

The applicant, if necessary, submits an application for making changes to the Directory through the state information system of industry.

6. An application for making changes to the Directory is submitted in electronic form, filled in by the authorized person responsible for submitting an application for including information in the register in the personal account of the state information system of industry and signed by the head (authorized person) of the applicant with an enhanced qualified electronic signature in accordance with the Rules for Using an enhanced qualified electronic signature when applying for state Government of the Russian Federation No. 852 of August 25, 2012 "On Approval of the Rules for the Use of an Enhanced Qualified Electronic Signature when Applying for State and Municipal Services and on Amendments to the Rules for the Development and Approval of Administrative Regulations for the Provision of State Services".

The application is accompanied by copies of documents confirming the use of the trademark and (or) certifying the conformity of products with the requirements of technical regulations, standardization documents or contract terms.

7. The applicant is informed about the progress of consideration of the application for making changes to the Directory by means of messages on the page of the personal cabinet of the state information system of industry and by e-mail specified by the applicant in the application for forming a register entry.

8. Based on the results of checking the completeness and reliability of the information specified by the applicant in accordance with paragraphs 6 and 7 of this Methodology, the Ministry of Industry and Trade of the Russian Federation, within 90 calendar days after receiving the application for making changes to the Directory, includes the information provided by the applicant about the trademark and (or) product model in the Directory add information about the trademark and / or product model to the Directory.

9. The Ministry of Industry and Trade of the Russian Federation:

a) within 3 working days, but not later than 30 calendar days following the day of official publication of this order, ensure that the operator of the monitoring information system and the operator of the state information system of industry are sent in machine-readable format in XLSX Directory format;

b) within 3 working days, but not later than 30 calendar days following the day of official publication of changes made to the Directory, ensure that the updated version of the Directory is sent to the operator of the monitoring information system and the operator of the state information system of industry in machine-readable form in XLSX format.
