

The Ministry of Health of the Republic of Kazakhstan (hereinafter - the Ministry) plans to hold III Annual International Exhibition “Digital Health v.3.0 COVIDFREE” from September 25 to 26, 2020.

“Digital Health v.3.0 COVIDFREE” means discovery of new opportunities in the digital world, meeting of the best minds on one platform, an engine for implementing breakthrough ideas.

During this event the latest achievements in digital technology, pharmaceutical industry, medical equipment, medical education and medical tourism are expected to be discussed. Together with the guests and participants of the event, we will analyze improvement of digital modernization in healthcare, and discuss medicine before, during and after pandemic.

This year, the Ministry offers a new approach to communication under the quarantine restrictions. A virtual world is created for the safety of participants which completely resembles a familiar to all of us conference and all associated with it processes. A new solution presented by Kazakhstani developers will give a sense of real presence. Participants will be able to visit 3D virtual exhibition, with an opportunity to connect and chat with a company representative, hold a group meeting in 3D dimension.

Panel discussions will be held in virtual space (halls) where over 150 performances are expected. The virtual event will also become a platform for networking where the contact exchange functionality will be realized, and the conference attendees will have the opportunity to call each other.

Considering the above we would like to ask you to assist in inviting representatives of IT-industry to participate in the conference on digital healthcare development, medical tourism industry (clinics, medical centers and specialized tour operators), pharmaceutical industry, scientific and academic environment, government entities, and business communities, international agencies, non-governmental organizations, manufacturers of medical machinery and equipment, specialists in commercialization of technology.

Please inform us on your decision to participate in the conference as soon as possible.

We would appreciate you for your assistance in inviting the participants to our virtual exhibition online.
